# *About Legend Medical Devices, Inc.*

## Manufacturer Direct Supply to Global Market

Legend Medical Devices, Inc. is a world leading manufacturer and marketer of quality respiratory products. Legend M.D.™, the trademark of anesthesia and respiratory care products marketed by Legend Medical Devices, Inc., is a new name but not new products. Our OEM manufacturers have provided the anesthesia and respiratory care products to global markets for many years. Legend M.D.™ series of anesthesia products is the manifestation of both continuous technological innovations and successful growth of Legend Corporation.

Our mission is to provide anesthesia and respiratory care products that can provide not only better patient care but also significant cost savings. We are headquartered in Los Angeles with numerous state of the art manufacturing facilities in Asia.

## Air Cushioned Face Masks

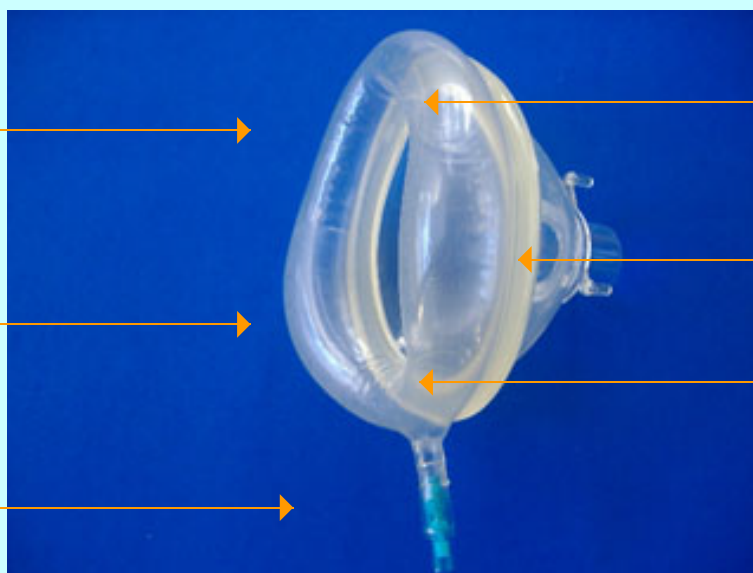

Better Quality and Better Price.  
You touch it, and you love it.

Legend M.D.™ face masks is an excellent example of Legend's constant pursuit for better quality products at less cost. Best known for its superior comfort and softness, the face masks has led its way to achieve impressive market presence globally. Just call us for the free sample to get a feel.

Ergonomic design for an optimal seal with minimum pressure

Thin wall for extra soft and superior comfort

Inflation valve for optimal seal

Great transparency for clear see-through

Well positioned connector port for easy connection/disconnection

Better hand holding enabling deep seating of cushion to face

# Endotracheal Tube

## Superior Quality at Less Cost

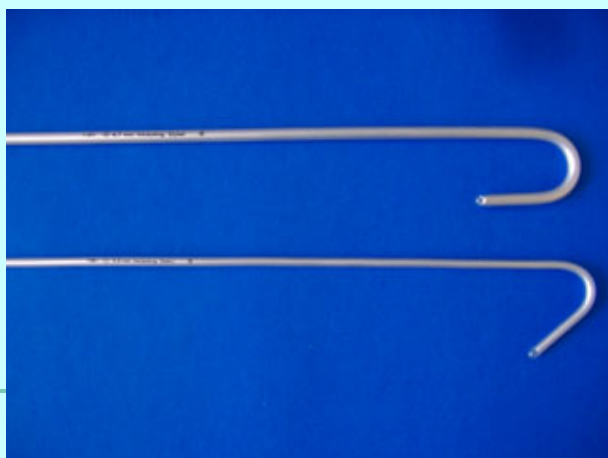

Legend M.D.™ EndoTube offers the rich choice of endotracheal tubes to meet your clinical need. Tubing transparency and quality conformance are monitored by x-ray visualization to ensure the highest quality of products to be produced. Legend M.D.™ EndoTube features softer Murphy eye and less evasive tip to prevent damage to tracheal tissue.

# Airways

## Guedel Airways

Legend M.D.™ Guedel Airways is made from semi-rigid polythene to avoid crimping and protect the teeth. The airways are color-coded for better identification. The center passage permits the passage of suction catheters to clear secretions from the back of the throat.

Item#	Description	Pkg
RGA24101	40mm, Size 0	50/bx
RGA24102	50mm, Size 1	50/bx
RGA24103	60mm, Size 2	50/bx
RGA24104	70mm, Size 3	50/bx
RGA24105	80mm, Size 4	50/bx
RGA24106	90mm, Size 5	50/bx
RGA24107	100mm, Size 6	50/bx
RGA24108	120mm, Size 7	50/bx

Individually bagged for single patient use.

## Berman Airways

Legend M.D.™ Berman Airways is made from semi-rigid polythene to avoid crimping and protect the teeth. The slotted side permits passage of suction catheters to clear secretions from the back of the throat without obstructing the air passage.

Item#	Description	Pkg
RBA24201	40mm, Size 0	50/bx
RBA24202	50mm, Size 1	50/bx
RBA24203	60mm, Size 2	50/bx

RBA24207	100mm, Size 6	50/bx
RBA24208	110mm, Size 7	50/bx

Individually bagged for single patient use.

# Filters

## Bacterial/Viral Filter

Legend M.D.™ bacterial and viral filter features minimum dead space for better filtration efficiency and low flow resistance. The filter can be placed at patient or equipment end.

### Technical Specification for Bacterial/Viral Filter

- Resistance to flow (cm H<sub>2</sub>O)
  - at 15L/min: <1.0cm H<sub>2</sub>O
  - at 30L/min: <2.5cm H<sub>2</sub>O
  - at 60L/min: <3.5cm H<sub>2</sub>O
- Dead space: 35ml
- Weight: 19g
- Bacterial filtration efficiency: 99.99674%
- Viral filtration efficiency: 99.99362%
- Filtration media: Electrostatic
- Sampling Port: V
- Tidal Volume: 150 ~ 1500ml

Item#	Description	Pkg
LMD BVF-A	B/V filter, I.D. 15mm, O.D. 22mm	25/bx

## Heat and Moisture Exchange Filter

Legend M.D.™ HMEF has the combined functions of bacterial/viral filtration and heat and moisture exchange. The minimized dead space and weight is designed for easy breathing. While electrostatic hydrophobic membrane protects against cross-contamination, the hygroscopic membrane retains exhaled moisture for heat exchange and humidification. The product is treated with physiologically safe calcium chloride.

### Specifications:

- Recommended Tidal Volume: 250ml ~ 1500ml
- Temperature (ISO 9360)
  - Vt 250ml: 32°C
  - Vt 500ml: 32°C
  - Vt 750ml: 32°C
  - Vt 1000ml: 32°C
- Absolute Humidity (500ml Vt, 20BPM): 30.6mg H<sub>2</sub>O/L
- Dead Space: 45ml
- Bacterial Filtration Efficiency: 99.99674%
- Virus Filtration Efficiency: 99.99362%
- Resistance to Flow (ISO 9360)
  - 15/min, 30/min, 60/min G<1.0cm H<sub>2</sub>O, <2.5cm H<sub>2</sub>O, 3.5cm H<sub>2</sub>O
- Filtration Media: Electrostatic

Item#	Description	Pkg
LMD HMF-A	Heat and Moisture Exchange Filter	25/bx

Sterile, for single use only. Recommended to be replaced once every 24 hours

# ***CPAP Tubing and Masks***

## ***CPAP Tubing***

Legend Medical Devices develops quality CPAP tubings with great transparency and reliability.

Legend's CPAP tubing has the combination of strength and flexibility. The smooth bore tubing has four different sizes:

Item#	Description	Pkg
CPAP-2G	2 ft, rubber end	50/bx
CPAP-6G	6 ft, rubber end	50/bx
CPAP-8G	8 ft, rubber end	25/bx
CPAP-10G	10 ft, rubber end	20/bx

# CPAP Mask

Legend Medical Devices supplies anatomically designed CPAP full face mask and nasal mask that can deliver the superior comfort and reliability. The mask has silicon cushion and is light weight.

Full Face Mask

- 1 One piece shaping: lightweight, easy cleaning, free loading
- 2 Made with medical liquid silicone: odor-free, soft, comfortable
- 3 Ergonomic design: totally-airtight
- 4 Swivel connector design: direction turn untrammelled
- 5 Mask integral floatable design: quiet and comfortable, snug fitting
- 6 In and out one way valve design: High safety, Carbon Dioxide (Co2) easily discharged

Nasal Mask

- 1 One piece shaping: lightweight, easy cleaning, free loading
- 2 Made with medical liquid silicone: odor-free, soft, comfortable
- 3 Ergonomic design: totally-airtight
- 4 Floatable design: snug fitting

Item#	Description	Pkg
LMDCPAP10	CPAP mask, full face, small	Unit
LMDCPAP11	CPAP mask, full face, medium	Unit
LMDCPAP12	CPAP mask, full face, large	Unit
LMDCPAP20	CPAP mask, nasal mask	Unit

# ***Respiratory Care Products***

Legend Medical Devices offer a rich selection of disposable respiratory products that feature both quality and cost-savings.

## ***Oxygen Therapy***

### **Nasal Cannula**

Three distinctive nasal cannula are available to meet the diverse clinical applications.

#### **Softlite™ Nasal Cannula**

Legend' Softlite™ nasal cannula features crush-resistance and soft nasal prongs that provide superior comfort. The over-the-ear tubing is soft and gentle.

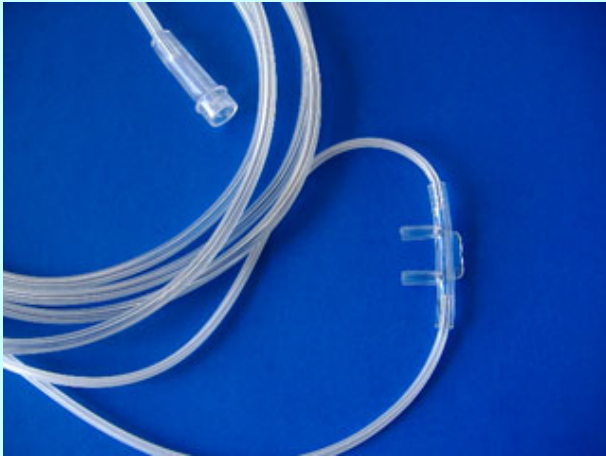

#### **Nasal Micro Cannula**

As a leading manufacturer for nasal micro cannula in the world, Legend Medical Devices designs and manufactures various sizes of nasal micro cannula with smaller nasal prongs that can offer better comfort and user friendliness. The soft over-the-ear tubing can avoid the skin tear-off. The tubing is kink-resistant.

## Standard Nasal Cannula

Legend M.D.™ standard nasal cannula provides the standard care of oxygen delivery at great cost savings. The tubing softness adds additional value to patient comfort.

## Guide for choosing Leged M.D.™ Cannulas

Item	Optimal Oxygen Flow	Nasal Prong	Feature	Preference
Micro Cannula	up to 3 LPM	Soft, small size	Most Comfort	Premium Plus
Softlite™	up to 6 LPM	Soft, normal size	Great comfort	Premium
Standard	up to 6 LPM	Standard, normal	Standard	Economy

Item#	Description	Pkg

## Humidifier

Legend Medical provides bubble humidifier with 6 PSI safety pop-off alarm.

Item#	Description	Pkg
RHMF001	Bubble humidifier, 400cc	50/cs

# Sterilization Pouch

The Legend DDS™ sterilization pouch developed by Legend Medical Devices, Inc. has superior quality in sealing and steam permeability. The pouch has indicator that can change the color after complete sterilization either by steam or EO gas. The triple seal on the edge provides the strength for packaging.

Item#	Description	Pkg
IC-P-1	2 1/4" x 4"	60
IC-P-2	2 3/4" x 9"	30
IC-P-3	3 1/2" x 5 1/4"	30
